

Midwest Ion Traps In Nuclear Science 2023

Conference Mission

The inaugural conference aims to bring together local ion trapping groups (CPT @ ANL, CHIP-TRAP @ CMU, LEBIT @ FRIB, and St. Benedict @ NSL) to build new connections and initiate collaborations. With a strong focus on sharing best technical practices and current experimental quandaries, MITIN promises to be an excellent breeding ground for new undergraduate, graduate and post-doctoral students to learn and build connections in the local nuclear ion trapping field. Our multi-day event aims to be a staple in building and maintaining the strong local community of trappers.

Important Information

- Dates: **June 19-21, 2023**
- Call for Abstracts: **Open**
- Registration Fee: **\$100**
- See Conference Website for additional information

Location

Radisson Plaza Hotel at Kalamazoo Center

100 W. Michigan Ave., Kalamazoo MI, 49007

Room Booking Information:

tinyurl.com/MITIN23-HotelReg

Organizing Committee

- Ramesh Bhandari (CMU)
- Scott Campbell (FRIB)
- Sam Porter (ND)
- Adrian Valverde (ANL)

Interstate Advisory Committee

Jason Clark	ANL
Guy Savard	ANL
Max Brodeur	ND
Ryan Ringle	FRIB
Matt Redshaw	CMU
